

LED lamp

I-4S provides a new generation of lightings which meet the logistical burdens occurring in an emergency deployment. Those lightweight sturdy lightings fit in all our tent models. Its LED technology is the optimal solution for accommodation, command posts and field hospitals. It is based on energy-saving operation. Our LED lamps instantaneously deliver a 5000 lumens steady light output. In bags or in cases our kits are composed with an appropriate number of lamps and extension cords.
